

When you're **climbing**  
to the **top**, don't settle  
for anything but the  
**highest** quality,

 **ALTASORB**

**Glycolide**  
**Lactide**

When your production or research needs are critical, you shouldn't settle for anything but the best - and ALTASORB offers the highest quality monomers available. ALTASORB products include Glycolide, Lactide (l and d,l), PDO, TMC, Caprolactone, Various Fluoromonomers and other derivatives.

Quality is not just about product however; it is also SERVICE. Altasorb monomers are produced domestically which means we can rapidly respond to your needs. In addition to producing specialty monomers, we also offer custom Medical Device, API, and Combination Product manufacturing services at our cGMP facility located near Greenville, SC. A variety of equipment along with USP water and a Class 100,000 Clean Room is available for your production needs.
