A leader in Biomaterials Research

Georgia Tech/Emory Center

For The Engineering of Living Tissues

Research Focus Areas:

- Biomaterials
- Cardiovascular
- Imaging
- Metabolic Secretory
- Neural
- Orthopaedic
- Stem Cells

www.gtec.gatech.edu

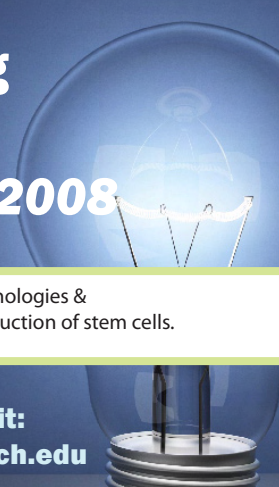

THINK BIG

Stem Cell Biomanufacturing Workshop

December 15-16, 2008

Join this international consortium to identify technologies & develop strategies to advance the large scale production of stem cells.

for participation information visit:
www.biomanufacturing.ibb.gatech.edu

Regenerative Medicine

Advancing Next Generation Therapies

MARCH 5-8, 2009

HILTON HEAD ISLAND, SC

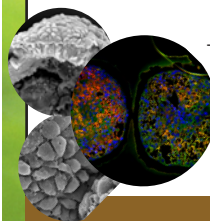

ABSTRACT DEADLINE: NOVEMBER 7, 2008

Bringing together leaders in a uniquely interdisciplinary & intimate environment for thirteen years.

STEM CELL SHORT COURSE

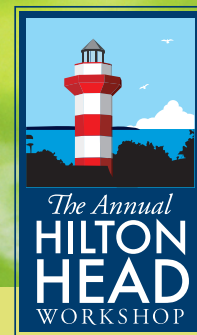

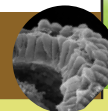

Directing & Assaying Stem Cell
Differentiation

The objective of this short course is to discuss recent developments in:

- Novel Means of Directing Stem Cell Differentiation
- Integrative, Multiscale Analysis Methods to Assay Differentiation

MARCH 4, 2009

Workshop Organizing Committee:

Robert M. Nerem (Chair), Julia E. Babensee, Gang Bao, Ravi V. Bellamkonda, Barbara D. Boyan, Andrés García, Robert E. Gulberg, Todd C. McDevitt, W. Robert Taylor

Short Course Organizing Committee:

Todd C. McDevitt (Chair), Steve L. Stice, Young-sup Yoon

Bringing You Leading Research In the Field

JOURNAL OF BIOMEDICAL MATERIALS RESEARCH PART A

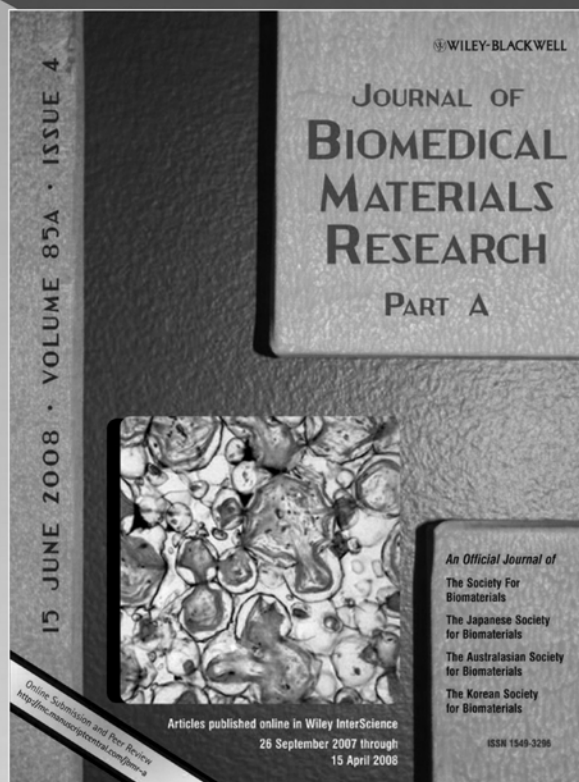

Editor-in-Chief
James M. Anderson

Associate Editor
Michael J. Yaszemski

The *Journal of Biomedical Materials Research, Part A* is an interdisciplinary, international forum for the publication of cutting-edge research in the field of biomaterials, including the science and technology of alloys, polymers, and ceramics. It is **the place** for materials scientists, biochemical engineers, mechanical engineers, orthopedists, dentists, and surgeons.

Be sure to view the **Journal's** ground-breaking articles at:

www.interscience.wiley.com/jbmr

The *Journal of Biomedical Materials Research, Part A* is an official journal of the Society for Biomaterials, the Japanese Society for Biomaterials, the Australian Society for Biomaterials, and the Korean Society for Biomaterials.

 **WILEY-BLACKWELL**

Celebrating a rich history

Dr. C. William Hall, founder
Society For Biomaterials

Dr. C. William Hall envisioned a “format for the interchange of ideas between biomaterials researchers.” 40 years later, Clemson recognizes this vision and its realization as the Society For Biomaterials.

leading a successful future

Upstate SC Biomedical Entrepreneurship Meeting

November 14, 2008
Westin Poinsett Hotel
Greenville, SC

An opportunity for professionals in biomedicine, clinical and regulatory industries, academia, investment, and intellectual-property law.

Serving the Needs of
Biomaterials Professionals

JOURNAL OF
**BIOMEDICAL
MATERIALS
RESEARCH**
PART B

APPLIED BIOMATERIALS

Editor
Harold Alexander

Associate Editor
Roy D. Bloebaum

Journal of Biomedical Materials Research, Part B – Applied Biomaterials, publishes the latest research findings, along with industry and regulatory news, to meet the needs of biomaterials professionals who design, promote, apply, regulate, produce, and market biomaterials and medical devices.

Be sure to view the **Journal's**
ground-breaking research at:

www.interscience.wiley.com/ab

The *Journal of Biomedical
Materials Research, Part B
Applied Biomaterials*

is an official journal of the
Society for Biomaterials,
the Japanese Society
for Biomaterials,
the Australian Society
for Biomaterials,
and the Korean Society
for Biomaterials.

Polymer Science • Contract Research • Processing Technology

With the right partners, our next medical breakthrough could be yours.

If you could choose the best partners in the world to help advance your ideas to commercial reality, one of them would be Zeus.

A leader in the design and production of medical device components, Zeus provides multi-national corporations as well as start-up firms with critical intellectual and physical resources essential to bringing new technology to market. Our extensive experience in polymer science, contract research, and process development makes us a powerful, collaborative ally.

Accelerate the development process. Start a dialogue with Zeus at contractresearch@zeusinc.com. Our next medical breakthrough could be yours.

ZEUS. Advancing Your Ideas for Life.
