

When you're **climbing**
to the **top**, don't settle
for anything but the
highest quality,

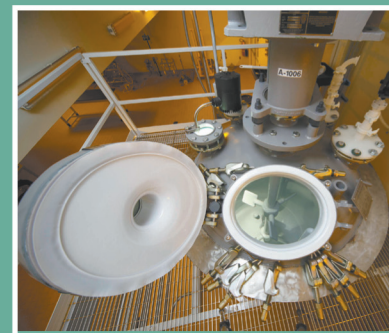

ALTASORB

Glycolide
Lactide

When your production or research needs are critical, you shouldn't settle for anything but the best. **ALTASORB** Glycolide and Lactide Monomers are the highest quality available.

Quality is not just product however; it is also **SERVICE**. **ALTASORB** monomers are produced domestically which means we can rapidly respond to your needs. In addition to producing Glycolide and Lactide, we also offer custom Medical Device, API, and Combination Product manufacturing at our cGMP facility located near Greenville, SC. A variety of equipment along with USP water and a Class 100,000 Clean Room is available for your production needs.
